PROFILE

Results-oriented and seasoned Full Stack Developer with over 10 years of hands-on experience in designing, developing, and implementing innovative software solutions. Adept at collaborating with cross-functional teams to deliver high-quality products that meet and exceed client expectations. Proven expertise in the entire software development life cycle, from concept and design to testing and deployment. Possess a strong background in both front-end and back-end technologies, with a keen ability to leverage a diverse skill set to tackle complex challenges.

EMPLOYMENT HISTORY

Freelancer

August 2017 — Present

Web developer at Liz Infotech Pvt. Ltd., Kolkata

August 2014 — August 2017

Key Skills that i have learned here :

- **Full Stack Development:** Extensive experience in building end-to-end applications, proficient in both front-end (HTML, CSS, JavaScript, React, Angular) and back-end (Node.js, Python, Ruby on Rails) technologies.
- **Database Management:** Expertise in designing and optimizing databases, with proficiency in SQL and NoSQL databases (MySQL, MongoDB, PostgreSQL).
- **Server-side Development:** Proven ability to develop scalable and efficient server-side logic, utilizing frameworks such as Express.js and Django.
- **API Integration:** Skilled in integrating third-party APIs and creating robust RESTful APIs for seamless communication between different components of a system.
- **DevOps and Deployment:** Proficient in deploying applications using containerization (Docker) and orchestration tools (Kubernetes). Experience with continuous integration and deployment (CI/CD) pipelines.
- **Version Control:** Strong proficiency in using Git for version control, ensuring collaborative and organized development workflows.
- **Agile Methodologies:** In-depth understanding and application of Agile and Scrum methodologies to drive efficient and iterative development processes.
- **Troubleshooting and Debugging:** Exceptional problem-solving skills, with a track record of identifying and resolving complex technical issues efficiently.
- **UI/UX Design:** Well-versed in creating intuitive and visually appealing user interfaces, with a focus on enhancing user experience.
